Re: ***Death is Not the Answer***

Dear Mr. Famie,

It was a pleasure to meet with you and learn about your documentary plans for your ***Death is Not the Answer*** program. The documentary is sure to give our viewers a clear understanding of the suicide in today's world.

Death is Not the Answer is sure to be embraced by public television viewers, many of whom have been touched in their lives by depression and suicide.

In ***Death is Not the Answer***, we'll learn about suicide and it's connection to depression and the devastation it leaves behind. The hope is that the documentary will help families gain new insight into the loss of their loved ones, and for the rest us an understanding of the hopelessness of those who choose to end their lives by suicide.

In working with you to ensure that the documentary meets public television standards we at Detroit Public Television hope to be one of the very first stations to broadcast the documentary. We are looking to premiere the documentary on Detroit Public Television when it is complete.

As you know, Detroit Public Television is truly committed to work with talented producers like you, Keith. We are committed to help you realize your story-telling vision.

We look forward to your success in the fundraising aspect of the documentary and it is with great anticipation that we may work together on the national distribution your production. Detroit Public Television has always been a dedicated supporter of national and local production.

Best regards,
